

Unit: 10,000 kloe

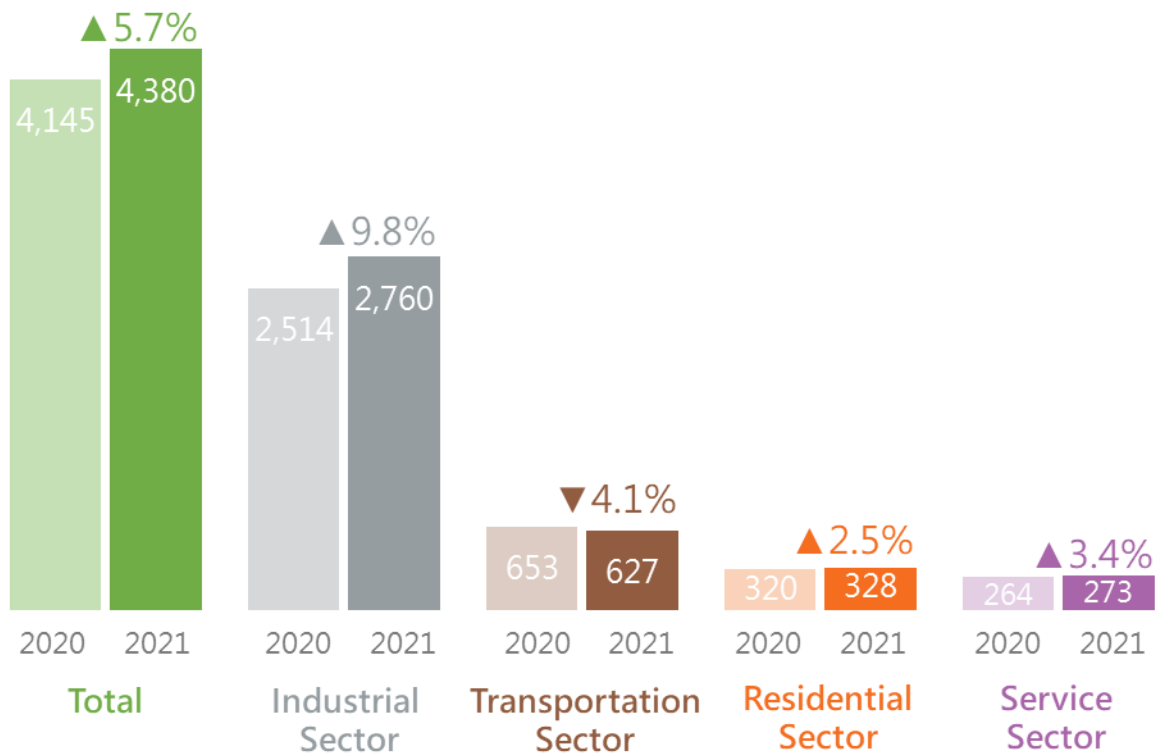

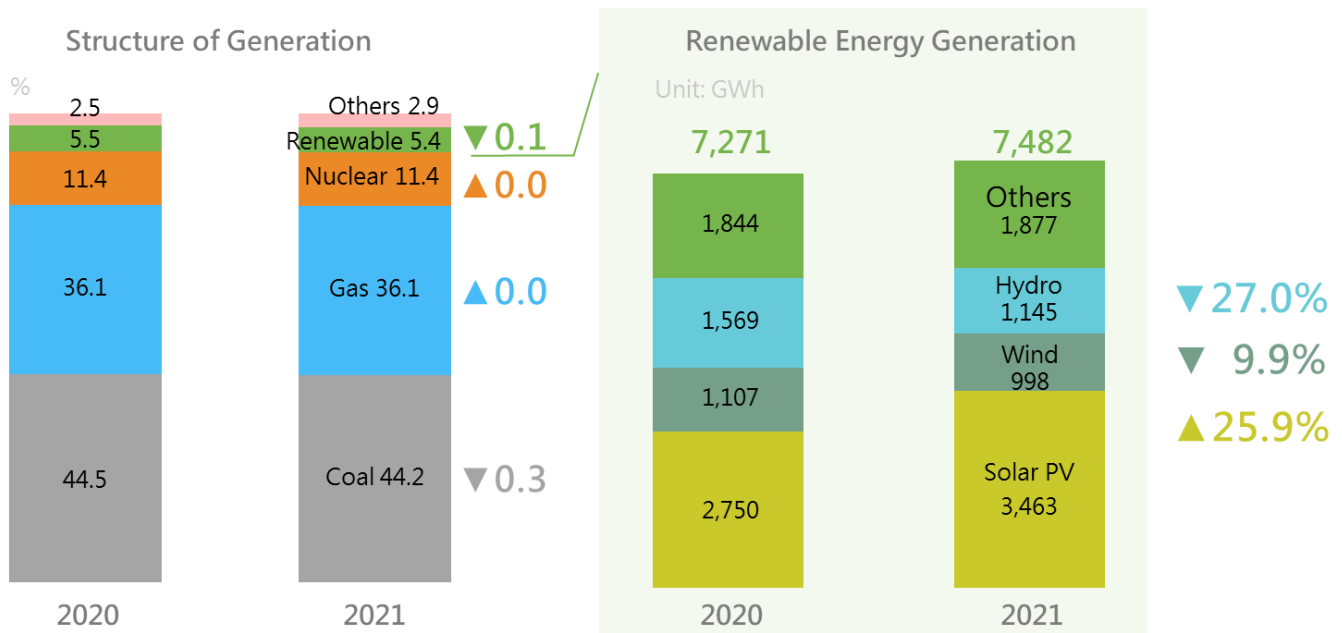

Figure 1. Changes in Domestic Energy Consumption (First Half of 2020 vs First Half of 2021)

Note: 1. The data of the structure of generation and power generation are as of the first half of 2020 and 2021.

2. "Others" in the structure of generation includes pumped hydro and oil-fired generation.

"Others" in renewable energy generation includes geothermal, biomass and waste.

Figure 2. Changes in the Structure of Generation and Renewable Energy Generation (First Half of 2020 vs First Half of 2021)
